A Merchant and His Gold

Many years ago a merchant had to go from one town to another. There were fifteen people with him. One day they made a camp near a river. Suddenly the merchant came out of his tent and cried, "Who took my bag of gold? There are fifteen men with me. One of you took the gold!" nobody answered.

"All right", said the merchant, "Do you see my white horse? It's a very clever horse. It will help me to find the thief. I shall put my horse into my tent. Then every man will come into the tent and pull the tail of the horse. When the thief pulls the tail, the horse will neigh".

The first man went into the tent. The horse did not neigh. Then another man went in, then another. The horse did not neigh. The last man went in, the horse did not neigh.

The merchant said, "Now everybody must come up to me". The merchant went to the first man and put his face to the man's hands.

Then he came up to the second man and did the same...

He came up to the twelfth man, put his face to the man's hands and cried, "You are the thief. Give me my gold back!"

The man felt down and said, "Yes, I did it. I took your gold and put it in the grass behind that big tree".

A few days passed. The merchant with his people came to their town. One of his people asked the merchant, "Your horse may be very clever, but it did not neigh. How did you know who was the thief?"

"Oh", said the merchant, "I know that my horse never neighs. I put some strong smelling oil on its tail. Everybody pulled the tail, but the thief did not pull it. His hands didn't smell of oil".

After every spring rain, grass grows on the hills and there is plenty of cow's milk. Our villagers are engaged in agriculture and animal husbandry. In the winter greenhouses are built in the courtyards, and vegetable seedlings are prepared there and planted in a large field in early spring. The village is a very strong place for me. The village life is very interesting and the village is green grass, green pastures, fresh air. And the city opposite the village. Because in the city not as fresh air as in the village. I.e dirty air. But I need the city too the village also likes it. Clean village air, nature, parity and the silence is close to my soul. The city beauty, high rise buildings, different. The village is still in the city. I don't like think it is enough. Every thing to him. I think he grees. I really like the village. Besides all this, you feel the cold breeze at night and a warm but pleasant breeze in the day. The atmosphere of the village is different. I like my village very much point 16

Shopping is an integral part of human's everyday life. Some people consider that online shopping more comfortable way for buying goods for them, while others prefer opinion, online shopping has many advantages and easily can replace traditional one. Firstly, people who buy products of clothes and other thing online have a big choice. Hence, such customers have a bigger probability to buy what they like than people, who prefer to go to the shops. Secondly, this way of shopping is very convenient as a person does not even need to leave his or her house. It is enough only to order something on the site by phone and wait. However, there is an opposing opinion. In conclusion, I would like to say that online shopping is more convenient way of buying goods and this type of shopping surpasses traditional one. point 10
